“NAIL” CABLE TIE MOUNTS WITH TACK-MOUNTS™ TO METAL

fast

economical

Now you can quickly and permanently fasten PANDUIT™ Cable Tie Mounts to metal **without drilling or any other surface preparation**. Just place the Tack-Mount on the tip of an Amtak air tool, position and impact the preinserted Metal-Tack directly into steel, aluminum or cast iron. The Tack-Mounts are manufactured from a special impact resistant plastic with preinserted hardened steel Metal-Tacks. No more drilling holes for rivets or screws and no more cleaning to prep for adhesives. The Tack-Mounts will be permanently secured to the metal surface but still able to rotate for final alignment.

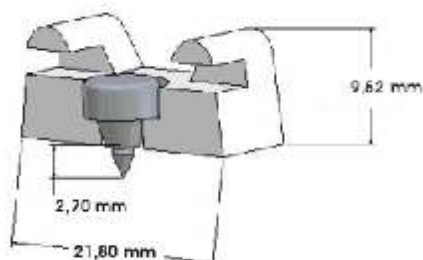

Install Tack-Mounts with TwinMag driver (No. 326). Tack-Mounts are sold in packages of 100 pieces. (No. 20427)

Position Tie Mount on the Air tool

Fasten in one operation.
No drilling or surface preparation.
